

# Picea pungens Fat Albert

**BOUNTIFUL  
FARMS**

The slow-growing **Fat Albert Colorado Blue Spruce** showcases eye-catching, vibrant blue foliage. Drought resistant and deer tolerant, this beautiful tree works well in any size garden. Considered a dwarf species of the Colorado Blue Spruce, its short and stout pyramidal shape won't overwhelm the landscape.

**HxS 40' x 20'**

**Zones 2 to 8**

At Bountiful Farms, we close plant and root prune 4 times before transplanting to the field for an additional 5+ years. The resulting vigorous root ball allows us to dig and ship a smaller ball, while still producing a healthy, vibrant tree.

17280 Boones Ferry Rd NE Woodburn OR 97071
